Parts and Accessories Necessary for Safe Operation; Application for an Exemption from Loomis Armored US, LLC

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA requests public comment on an application for exemption from Loomis Armored US, LLC to allow the driver and passenger doors of the cab of its specialized armored vehicles to be welded shut. Loomis believes that welding shut the cab doors and adding two new doors behind the cab will maintain a level of safety that is equivalent to, or greater than, the level of safety achieved without the exemption, while allowing secure armored car operations with reduced staff.

Privacy Act

DOT solicits comments from the public to better inform its rulemaking process, in accordance with 5 U.S.C. 553(c). DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in

the system of records notice (DOT/ALL 14 – Federal Docket Management System), which can be reviewed at www.transportation.gov/privacy.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31315(b) to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations (FMCSRs). FMCSA must publish a notice of each exemption request in the *Federal Register* (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request. The Agency reviews the safety analyses and the public comments and determines whether granting the exemption would likely achieve a level of safety equivalent to or greater than the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the *Federal Register* (49 CFR 381.315(b)). If the Agency denies the request, it must state the reason for doing so. If the decision is to grant the exemption, the notice must specify the person or class of persons receiving the exemption and the regulatory provision or provisions from which an exemption is granted. The notice must specify the effective period of the exemption (up to 5 years) and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.315(c) and 49 CFR 381.300(b)).

Loomis' Application for Exemption

The FMCSRs require that (1) cab compartment doors or door parts used as an entrance or exits shall not be missing or broken; (2) doors shall not sag so that they cannot be properly opened or closed; and (3) no door shall be wired shut or otherwise secured in the closed position so that it cannot be readily opened. *EXCEPTION: When the vehicle is loaded with pipe or bar stock that blocks the door and the cab has a roof exit.* Loomis has applied for an exemption from 49 CFR 393.203(a) to allow the cab doors on

its specialized armored vehicles to be welded shut, given the addition of new doors behind the cab. A copy of the application is included in the docket for this notice.

Request for Comments

In accordance with 49 U.S.C. 31315(b)(6), FMCSA requests public comment from all interested persons on Loomis' application for an exemption from 49 CFR 393.203(a). All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

Associate Administrator for Policy.
